

Lead ICT & Infrastructure Engineer

On-site Minerva Marine Inc. Full time
Voula, Attica, Greece

Description:

Minerva Marine Inc. is seeking a highly skilled and experienced Lead ICT & Infrastructure Engineer to join our team. In this role, you will be responsible for overseeing and managing all aspects of the company's ICT infrastructure, systems, and networks, ensuring their reliability, security, and optimal performance.

As a member of the team you will:

- Lead a small team and provide technical guidance. Collaborate closely with other IT teams to address interrelated issues and undertake projects.
- Manage or actively contribute to IT projects, ensuring they are completed within the defined scope while meeting project deadlines and staying within the allocated budget.
- Manage the design, implementation, and ongoing maintenance of both on-premise and Cloud-based systems.
- Implement and enforce security measures to protect the organization's IT assets.
- Provide technical support to end-users, addressing hardware, software, and network issues.
- Analyze and effectively resolve complex technical problems, performing root cause analysis, and implementing proactive measures.
- Optimize IT infrastructure for performance, scalability, and efficiency.
- Propose and execute enhancements to optimize IT efficiency and effectiveness.

Requirements:

- Master's degree in Computer Science, Information Technology, or a related field.
- At least 10 years experience as a System Administrator. In-depth knowledge of virtualization technologies, server administration, and network protocols.
- Expertise in managing both on-premise and Cloud-based infrastructure.
- Strong understanding of security best practices and compliance requirements.
- Leadership and project management skills.
- Excellent knowledge of English (verbal and written)
- Critical thinker, problem-solver, team player
- Great interpersonal and communication skills
