

AIESEC internship in Netherlands

AIESEC in Aristotle University offers you:

- An internship in a company in Maastricht, Netherlands!
- Duration: 6 months- 1 year
- Company: HIM Web media BV
- Background: Software Development and Programming and Web Development and Programming

Some information about the Job

Description:

- 1. The trainee will be trained by and work with HIM programmers on (online) interfaces.
- 2. Using AS3, Flex and several different frameworks and techniques, HIM developed a framework that enables programmers to program lively, graphic interfaces, packed with functionality.
- 3. Our framework delivers content to PCs, iPhones, iPads and other devices. The trainee will be responsible for producing (parts of) interfaces that we build for (international) clients.

And more...

- 4. The trainee will be trained using the HIM framework. Additionally the trainee will learn how to translate a graphic design into an (online) interface that interacts with the user.
- 5. The trainee will be participating in a company sports program that encompasses snowboarding, climbing, mountain biking, rafting, and other active sports. Locations are the Ardennes and the Alps.

What the company provides you:

- The intern will stay at the HIM campus.
(This campus encompasses a main building, housing up to 12 programmers. The terrain offers 2 ha of forest, a main building, including all facilities (kitchen, bathrooms, wine cellar, etc.). Additionally the campus has a second building that serves as an office.)
- All costs related to housing will be paid by HIM.
- The office that the intern will be working from is located in Maastricht.
- The campus is located in Spaubeek, 12 km from Maastricht. Transportation will be arranged.
- Payment: approximately 655\$
