Minerva Marine Inc.
seeks to recruit a **SAP Developer** for its Information Technology Department

Main responsibilities:

- Customize and configure SAP applications based on the specific business requirements of the organization.
- Create custom programs and reports to enhance the functionality of SAP modules.
- Work on integrating SAP modules with third-party applications to ensure seamless data flow and communication.
- Identifying and resolving issues within the SAP environment. This includes debugging programs, analyzing system errors, and providing technical support to end-users.
- Be involved in the process of upgrading the system to the latest version. Work also on enhancing existing functionalities to align with evolving business needs.
- Document configurations, customizations and user manuals.
- Collaborate with other IT professionals and end-users to understand business requirements and ensure that SAP solutions meet the organization's objectives.

Required Qualifications:

- Bachelor's degree in Computer Science, Information Technology or relevant field
- At least 4 years of experience with ABAP development with emphasis on SAP FI/MM
- Excellent knowledge of English
- Critical thinker and problem-solving skills
- Team player
- Good time-management skills
- Great interpersonal and communication skills
